Pierce College District Running Start
Verification of Eligibility for Home school Running Start

This form must be completed on a yearly basis and submitted to the local Running Start office at the campus the student plans on attending prior to registering for classes.

For home school students seeking admission to Running Start, it is the responsibility of the common school district to establish grade placement criteria. Some schools consider age appropriateness; others review credits and prior learning.

Enrolling any student in the Running Start program means that the student is also enrolled as a public high school student - in order to access state funding allotted for the Running Start program.

Information noted below must be completed by the Public School District:

Name of Public School District: _____

Address: _____

_____
