

Degree Planner Introduction

March 2023

Objectives

By the end of this lesson, you will be able to:

- Understand what Degree Planner is
- Build “What If” plans for yourself in Degree Planner

What is Degree Planner?

- Degree Planner is an educational planning tool in Starfish.
- You can use Degree Planner to personalize course or pathway maps as a guide to degree and/or certificate completion.
- You can create as many plans as you'd like. However, there is only one **active** plan at any given time. Your active plan is the main plan that you should be following.

Degree Planner is not...

- **Degree Planner is not a registration tool.** If you plan to take a course in Degree Planner, that does not guarantee that you will be able to register for the course. You will register for courses [using ctcLink](#).
- **Degree Planner is not an official evaluation or degree audit tool.** While Degree Planner does have programs that are built to guide you towards completing a degree, Degree Planner should not be used as an official evaluation. [Contact the Evaluations team](#) for an official evaluation to determine degree completion.

Using Degree Planner in Starfish

Building a Plan Overview Process

This is an overview of how to build a plan. We'll go through these steps in the next slides.

1. Go to Starfish.
2. Find the Degree Planner tool.
3. Create a new plan.
4. Go through the Requirements, Courses, Schedule, and Student Records pages and adjust the plan accordingly.

Go to Starfish

First, log in to [Starfish](#). You will use the following credentials to log in:

Username

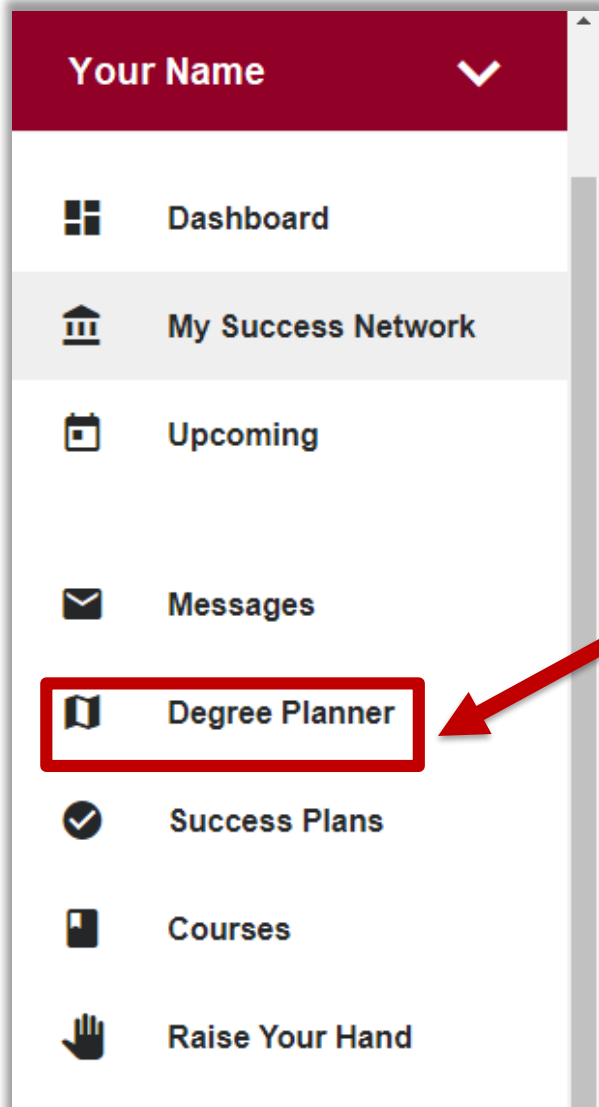

- First Initial + Last Name + Last Four Digits of Student ID Number*
- **Example:** jgonzales6789
 - **If you were admitted to Pierce on or before April 30th, 2020: Use your old SID number.*
 - **If you were admitted to Pierce on or after May 1st, 2020: Use your ctLink ID number.*

Password

- PCD!+YYYY+MM+DD
 - Where the YYYY MM DD is your birthdate.
 - **Example:** If your birthday was January 27, 1985, your password would be PCD!19850127
 - The PCD in the password is case-sensitive and needs to be in all caps.

Find Degree Planner

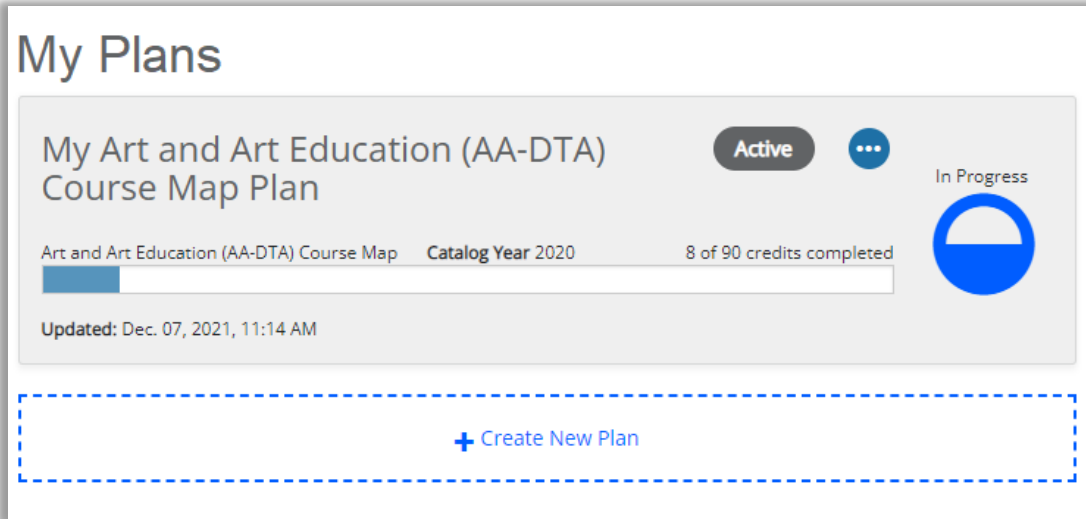

Go to Degree Planner

From the Main Menu,
click Degree Planner.

Existing Plans

- You may see some existing plans in Degree Planner already! These are plans that your advisor may have created for you.
- Do not edit your Active plan made for you by your advisor! You can create additional “What If” plans in Degree Planner that you can edit and play around with. Let’s build one now.

+ Create New Plan

Building a Plan

Click Get Started

The screenshot shows the Starfish Success Plan interface. At the top, there is a navigation bar with buttons for Flag, Referral, To-Do, Kudos, Success Plan, Message, Note, and App. Below this is a sidebar menu with options: Overview, Success Plans, Degree Planner (highlighted), Courses, Tracking, Meetings, Notes, and Network. The main content area is titled "Create a New Plan" and contains the following text: "Your advisor can support you in choosing a pathway map, clarifying the pathway map, and answering your questions about our maps, degrees, and certificates. Please work with your advisor (contact information in your Starfish Student Success Network)." A red box highlights the "Get Started" button, and a red arrow points from a larger red box below to this button.

If this is your first plan, click
Get Started.

Click Create New Plan

Build Plan

You'll be prompted to enter a Program.

What are Programs in Degree Planner?

- All plans in Degree Planner are identical to the Course Maps from the [Pierce College Catalog](#).
- You can choose any of these maps to create a plan from them.

Create New Plan

Your advisor can support you in choosing a pathway map, clarifying the pathway map, and answering your questions about our maps, degrees, and certificates. Please work with your advisor (contact information in your Starfish Student Success Network).

Archaeology (AA-DTA) Course Map ✕
[Add another program](#)

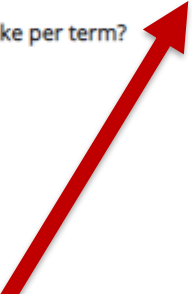

[Advanced Settings](#)

What term does your plan start? ▼

About how many credits do you want to take per term?

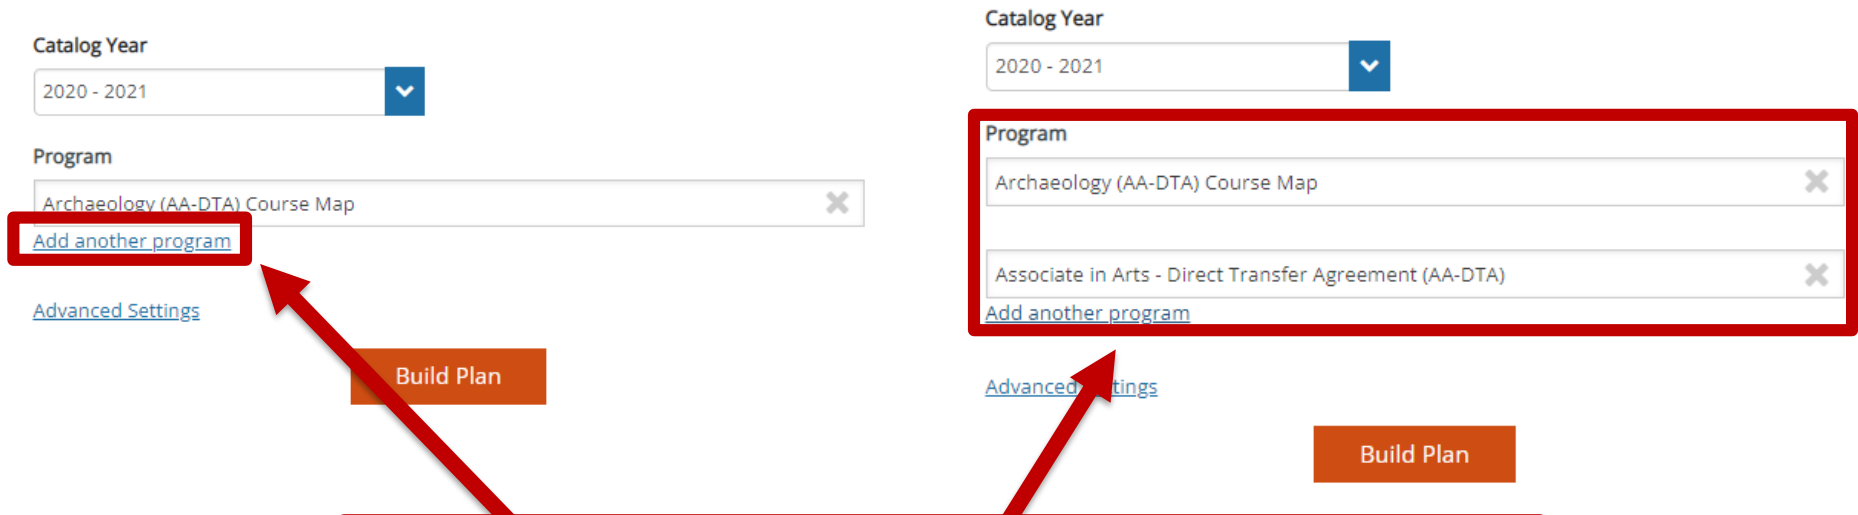

Do you want to take summer classes?
 Yes No

What type of schedule do you prefer?
 Less time between classes
 Fewer days with classes

If you click “**Advanced Settings**,” you will see scheduling preference options. The, “**What term does your plan start?**” option **must remain** on the upcoming term (or a future term), even if you already have course history. If you change this setting to a past term, Degree Planner will likely **make errors** while building the plan.

Build Plan

When building a Degree Plan, you can add up to 3 separate programs into a single Degree Plan using the “Add another program” option.

Why would you build a Degree Plan with Multiple Programs?

- Using the “Add another program” feature allows you to pursue multiple degree options without having to refer to multiple plans.
- This can reduce guesswork and overthinking about what courses would meet requirements between different programs, as well as provide GE or GTE credit.

Click the Build Plan Button

Create New Plan

Your advisor can support you in choosing a pathway map, clarifying the pathway map, and answering your questions about our maps, degrees, and certificates. Please work with your advisor (contact information in your Starfish Student Success Network).

Build Plan

After selecting a program, click Build Plan!

Building the Plan

- After clicking Build Plan, Degree Planner will build a plan for you based on the program chosen.
- Degree Planner will attempt to take into account your course history, transfer courses (as noted officially in ctcLink), plan requirements, course priority, and course prerequisites when building the plan.

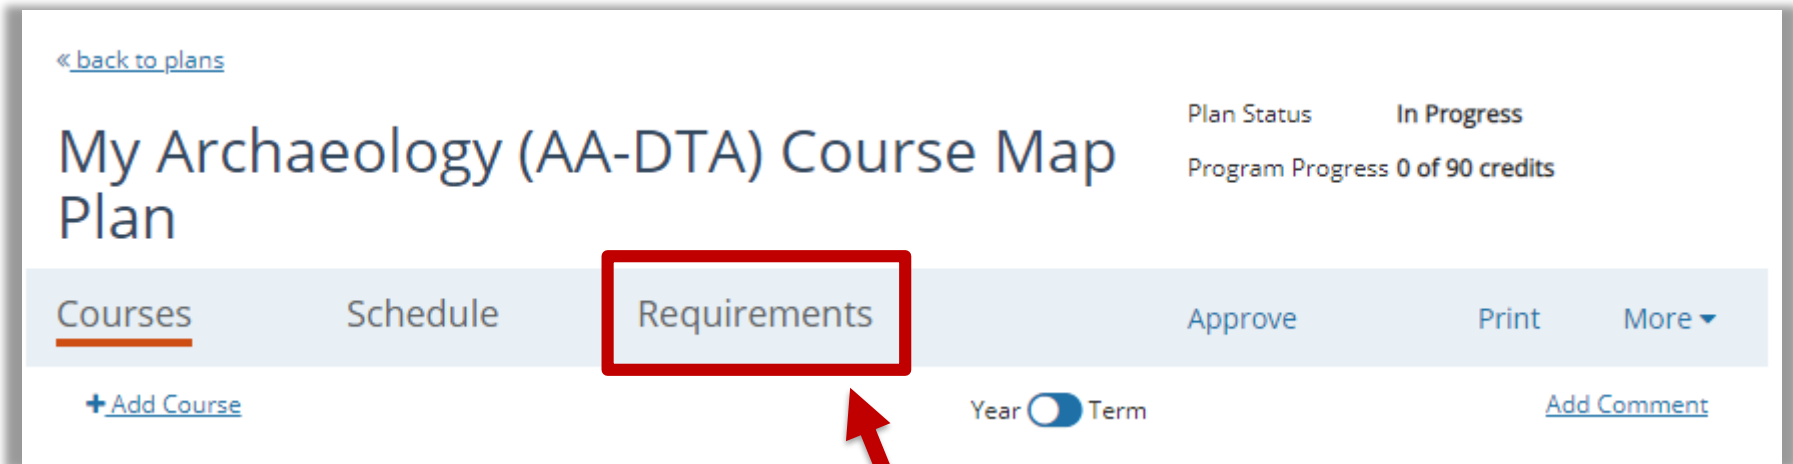

You've built your first plan!

Next we'll go through an overview of the main screens in your plan.

You may need to make some adjustments to the plan after it is auto-built to meet your needs. The next slides will go over different ways you can modify your plan.

Placeholders

You may see items on the plan that have a dotted outline. These are called “Placeholders”. These appear on the plan when there are multiple course options that you can take to fulfill a requirement. Hover your mouse over the placeholder to view the full description.

The screenshot displays a course plan interface with two semesters: Spring 2022 (15 Credits) and Summer 2022 (5 Credits). The Spring 2022 section includes course boxes for ANTH&206 and ENGL&111, followed by a placeholder box labeled "Choose one Soci...". The Summer 2022 section includes a placeholder box labeled "Choose one Geo...". A red box highlights the "Choose one Geo..." placeholder, and a red arrow points from the text box on the left to this placeholder. Below the highlighted placeholder, a tooltip is visible, stating "Choose one Geography course: GEOG100 or GEOG200". The interface also shows sections for Spring 2023 and Summer 2023 at the bottom.

If you would like to explore different options for section meeting patterns, click “Reschedule my courses.” Degree Planner will offer alternate meeting pattern options based on the sections that exist for the next term.

Schedules are Tentative

- The Schedule page can be a place to play around with different schedule options.
- **Degree Planner is *not* a tool that registers you into classes.** Degree Planner does not send these intended sections over to ctcLink. Even if you plan to take a specific section in Degree Planner, that does not guarantee a spot in that section when you enroll in classes in ctcLink.

Save as PDF

- Degree Planner auto-saves any changes you make to your plan, but if you want a copy of your plan then you can save it as a pdf.
- To do so, click the “Print” button in Degree Planner and set the Destination to “Save as PDF”.

Requesting Approval

- Click “Request Approval” and your advisor will be notified you completed a degree plan in Starfish.

Request Approval

That's it!

We've gone through the main pages in a plan. You should now be able to build, edit, and save What If plans from Starfish Degree Planner.

Need help?

If you have questions or feedback about Starfish, please email StarfishTeam@pierce.ctc.edu.

Thanks!

Student Success Technology Specialist

StarfishTeam@pierce.ctc.edu
