Attachment Theory and how multiple placements impact a child's ability to attach.

Stuck in the Middle: Relative Care Givers

Help kinship caregivers recognize family boundaries.

Success beyond Care

Knowledge and skills needed to help foster children succeed independently.

Possibilities...Realized

Our workshops provide training to meet the needs of caregivers nationwide!

- Our workshops are completely interactive! We have actual instructors and students available to interact with you and to answer questions.
- The program is flexible! You do not have to be logged in at a specific time each day. This means you can participate at times that are convenient for you!
- Each online workshop runs for 3 weeks and provides training hours towards fulfilling state licensing requirements.
- Workshops are only \$25; there are no textbooks to purchase ...and you don't have to worry about childcare!
