

How to help class

1's (Why's)

you'll naturally have some stories...

get conversation started.

Add your story → **compare** it to other story and **relate** to concept.

2's (What's)

What's the core concept for this section?

If we've gone too long on an example - how does this relate?

3's (How's)

Exams - you'll naturally break down the questions into steps - if you can't, ask.

4's (What if's)

Take the main concept and make it more complex

Explain what I'm doing to the rest of the class.
