

Resources for 2's:

1. put structure of class - main ideas -on left hand side
2. Don't spend more than 5 min on an example without there being a point.
3. Web site - actual exam questions - so you know where we're going.
4. Web site - lots of extra notes, etc. Am trying to put up check mark for those I've handed out. Rest are optional.
5. I am responsive if you don't see example, can send draft of exam ahead of time and I'll tell you if you're missing something.
6. There is a main concept for each topic. Hold onto that.
