

Developed by the faculty, this map offers you a clear sequence of courses to fulfill Pierce's degree requirements and to transfer to a four-year school in your career field. It provides you with a clear path to complete your degree on time, contains the appropriate number of credits, and meets all degree requirements. The faculty have selected specific general education courses that will prepare you for a career in this area. Some courses may be substituted, but we recommend you speak with an advisor or faculty member before doing so to assure you meet all requirements. You will also find on this map actions that you need to complete to help you progress through the program and graduate on time!

### Associate of Arts DTA with a Cultural Anthropology Focus

Note, this map does not guarantee transferability to a four-year institution. While care has been taken to ensure that information contained in the map is correct at the time of publication, universities may change their requirements at any time. You are urged to verify transfer eligibility with your four-year institution. If you are planning on transferring to the University of Washington, you need to have either two years of high school language or two terms of college language courses to be accepted into the institution. If you do not have high school language, you should consider language as one of your humanities courses below. Languages are best studied in back-to-back terms for retention of course outcomes and language progression. Degree requirements must be fulfilled and can be found at: <https://www.pierce.ctc.edu/associate-degrees>. Advisors and faculty members are happy to help you determine the transfer requirements for your perspective four-year institution.
